

Theatre Club of IITRAM

Theater is an artistic expression of human emotions which lead us to a new world of innovation and imagination. It changes the overall outlook of an individual. At IITRAM, the students learn to act and then learn to be different and representative of their own being!! They indulge in theatrical activities to boost their expression powers and confidence to face the audience... Prof. Brian Brophy US based CALTECH faculty, Hollywood actor and director, trained the students with variety of aspects of theater!! It is a continuous practice throughout the year to train the students to be vocal and confident!
