Abstract

The guest lecture by Ms. Nivedita Menon who represented 'Design for Change' organization was a very enlightening one where she talked about cultivating 'I can' mindset in every individual. She explained her belief that there is no end to learning and we learn something new every day from every person we meet. She cited examples where children were asked to identify and transform anything that bothered them in their community - shifting their mindset from 'Can I?' to 'I can!' This lecture inspired everyone present and made them realize the power of words 'I can'. She received a very warm applause from the audience.
