

**BTP Project titles (Discipline of English, HSS)
Dr. Meera Vasani & Dr. Wati Longkumer**

Digitizing of Indigenous Oral Stories (Dr. Meera Vasani & Dr. Wati Longkumer)

Creating a website and documenting oral stories with an aim to preserve cultural heritage of tribal communities in India. The project will include, a) creating a website (WordPress, Wix, and Squarespace) and b) research on tribal communities (focus can be on local folklore, family stories, historical events, or any other kind of oral tradition or categorizing the stories by theme or topic).

Architectural practices of Indigenous Communities (Dr. Meera Vasani & Dr. Wati Longkumer)

The architectural practices of Adivasi communities in India is diverse and reflects the unique cultural identities and building practices of different regions and tribes. Adivasi architecture is often closely linked to the natural environment, and materials like bamboo, thatch, mud, and stone are commonly used in their construction. This project will focus on the tribes in and around Gujarat.

A Case study on Business Communication: Communication and Miscommunication in the email messages (Dr. Meera Vasani & Dr. Wati Longkumer)

Email is a good way to get your message across. Depending on your purposes, the messages you send will differ in their formality, intended audience, and desired outcomes. Miscommunication can easily occur when people have different expectations about the messages that they send and receive. This project is to analyse through some samples the linguistic reasons for communication or miscommunication visa-versa.

Business Communication in Social Media and its success: (Dr. Meera Vasani & Dr. Wati Longkumer)

Social media is now a critical part of the way people in most walks of life communicate and a key part of how work gets done from corporations to government. Most of the communication happens online via Twitter, Email, Facebook, Skype, etc. Using these channels as means of communicating with clients and other businesses needs to be done right in order for it to be effective. This project will try to analyse the communication tools through which one can be successful in almost all communications.

Structural Design assessment of Maja Tola (Dr. Meera Vasani & Dr. Mahesh Mungule)

Maja Tola, the residential hamlets of Gond community narrate the disappearing nature- culture bond which connected the social, natural and spirit world in their native culture. This project will focus on the setting of Maja Tola prior the years 1936-1940, the mid-level transformation after the years 1940 and the third level transformation after the year 2000 with an aim to study the civil engineering merits and demerits with the structural design.
