

## **Student Achievement!**

**Mahi Patil (Ph.D. Research Scholar)** working under supervision of Dr. Kannan Iyer and Dr. Trudeep Dave (Faculty, Department of Civil Engineering, IITRAM) has won the **'Best Oral Presentation Award'** for the paper titled 'A Study on Landfill Mined Soil Like Fraction for Civil Engineering Applications' authored by Mahi Patil, Parish Dalal, Kannan K. R Iyer and Trudeep N. Dave. The paper was presented during Recycle 2020, 3<sup>rd</sup> International Conference on Waste Management organised at IIT Guhawati during 13-14<sup>th</sup> February 2020. IITRAM family extends many congratulations to Mahi and co-authors for the achievement.

The authors wish to sincerely acknowledge the support from Gujarat State Biotechnology Mission (GSBTM), Department of Science and Technology, Government of Gujarat for funding the study as part of an ongoing sponsored research project. The authors also wish to thank Ahmedabad Municipal Corporation, Ahmedabad for providing landfill mined material for the study.

The below mentioned research papers from the IITRAM research group were also presented during the Recycle 2020 conference at IIT Guhawati:

1. Wanare R, Iyer K. K. R and Dave T N. (2020), Application of Biosolids in Civil Engineering: State of the Art, Presented at Recycle 2020, 3<sup>rd</sup> International Conference on Waste Management, IIT Guhawati, 13-14<sup>th</sup> February 2020
2. Dalal P, Patil M, Dave T. N and Iyer, K. K. R (2020), A Study on Controlled Low Strength Material (CLSM) as Sustainable Backfill, Presented at Recycle 2020, 3<sup>rd</sup> International Conference on Waste Management, IIT Guhawati, 13-14<sup>th</sup> February 2020

**Some Glimpes of Mahi's Achievement during Recycle 2020**
